Renzil Rodrigues

Technical Architect | Process Automation Engineer | AI & Content Strategist

renzil.digispec@gmail.com | LinkedIn | Web Portfolio | Github | +91-7259540700

Driving ₹10Cr+ annual savings through large-scale backend engineering, NLP/ML models, and enterprise automation at Swiggy.

Core Competencies

- **Process Automation & Engineering**: Workflow optimization, API integrations, pipeline automation
- **AI/ML Solutions**: NLP, LLMs, predictive models, audit engines, annotation frameworks
- **Backend Architecture**: LAMP, MERN, REST APIs, scalable web services
- **Data Engineering**: PostgreSQL, Snowflake, MySQL, MongoDB
- **Cloud & Platforms**: AWS, Azure AI, Docker, Kafka, GitHub, LangChain
- **Visualization & Tools**: Power BI, Figma, Canva, Excalidraw, Google/Microsoft Suites
- **Content & Training Systems**: Knowledge management, technical content enablement, SOP automation
- **Languages & Frameworks**: Python, Node.js, PHP, JavaScript, Express.js, HTML, CSS

Professional Experience

Lead Process Automation Engineer | Swiggy | Nov 2024 – Present

- Designed & deployed automation frameworks eliminating 20K+ manual hours annually and improving SLA adherence by 15%.
- Built AI/NLP escalation prevention models, reducing refund/compensation leakage by ₹7Cr annually.
- Developed scalable backend services (LAMP/MERN) supporting 8K+ daily users, optimizing customer resolution workflows.

Process Automation Engineer | Swiggy | Oct 2023 – Nov 2024

- Created scalable APIs integrating Google Workspace, Microsoft 365, and Snowflake, streamlining data pipelines.
- Automated content & training workflows, cutting onboarding cycle time by 25%.
- Transitioned multiple legacy systems into automated, real-time solutions for higher process reliability.

Asst. Lead – Training & Content | Swiggy | Oct 2022 – Oct 2023

- Designed knowledge management systems impacting 5K+ agents.
- Built data-driven content strategies, improving resolution speed by 4%.
- Introduced automation into hiring and training processes, reducing manual dependency.

Senior Training Specialist | Swiggy | Sep 2020 – Oct 2022

- Conducted "Train the Trainer" programs and scaled SOP knowledge transfer across 5K+ partner agents.
- Maintained dynamic process documentation with feedback-driven updates, improving adoption.

Key Projects

Enterprise Web App (Internal Tooling & Dashboarding)

- Multi-model backend + frontend serving 8K+ daily users for metrics & resolution evaluation.
- Provides agent recommendations, dashboards for auditors, and SLA tracking.
- **Tech:** PHP, Python, MySQL, PostgreSQL, Snowflake, jQuery, HTML, CSS

Pattern Detection Models (ML for Email Automation)

- Automated classification of 1.5L+ daily emails with 98% accuracy.
- Delivered ₹7Cr+ annual cost savings and ₹3Cr+ reduction in false claims.
- **Tech:** Python, Naïve Bayes, Random Forest, Hugging Face Transformers

Audit Bot (Conversation Screening & Insights)

- Screened 1.2L+ daily agent–customer interactions to flag high-risk cases.
- Enabled policy evaluation & training recommendations, projected ₹4Cr annual savings.
- **Tech:** PHP, Python, PostgreSQL, Snowflake, Databricks, LangChain, Azure AI

Education & Certifications

- **Bachelor of Commerce**, St. Aloysius College, Mangaluru (2018)
- **Advanced Prompt Engineering Techniques**, LinkedIn (2024)
- **Career Essentials in Data Analysis**, Microsoft (2024)
